UNCLE SAM CREDULOUS ABOUT THE OLGA TORPEDO STORY.

Berlin, 6—Some papers announce that the Samoa conference will be opened on or about the 13th inst.

St. Petersbug, 9—Czar has ordered investigation of the Atchinoff expedition and Sagallo affair. An imperial Ukase authorizes the Finance Minister to emit a loan to convert the Railway Bonds.

Vienna, 9—The press with sole exception ofGovernment organs announce that the increasing Russian preponderance in the Balkans will give rise to serious disturbances. Mr. Zankoff, a Bulgarian statesman and Russian partisan, says explicitly that the Czar has no desire to interfere by force in Bulgaria and that the expulsion of Prince Ferdinand was an international matter.

Belgrade, 9—The new Cabinet has taken the customary oath of fealty to King Alexander. Immediately afterwards the Ministers were received in audience by the ex-King.

London, 9—The Parnell Commission refuses to go into the "forged letters". Opposition in House of Commons will discuss the Attorney General's conduct in Monday's sitting.

Paris, 9—Court of Appeal has decided that Panama Canal Company is a civil Association and not a commercial Society as decided by the Commercial Court.

Los Angeles, Calif, 9—Tremendous excitement caused by discovery of gold in Lower California, district of Sta. Clara, situated some 150 miles to the South of San Diego. Thousands of persons are on the way to the fields. The town of Ensenada is completely deserted. It is said that the Mexicans who have worked the placers have taken out 15 lbs. of gold daily.

Washington, 9th—Marine Department attaches little credit to report of the Olga affair. No particulars have been received in the State Department, and the naval authorities say they would have received the news before Germany. The Nipsic was the only U.S. war vessel in Samoa waters in the week preceding first of month.

Obras 36.

We are expecting Casey to take the Presidency of the Obras Company and bring heaps of money from B. Aires.

Advices from Rio say that the Argentine doctors make a daily inspection of Fever Hospital and complain of the sanitary arrangements which are wretched. On the 7th there were over a hundred deaths, half of contagious diseases, principally Yellow Fever.

A NEW MORTGAGE COMPANY.

The other day we shewed how in the last three years the State mortgage banks have issued the fabulous amount of 330 million Cedulas: we say fabulous, not that the issue is too much for the requirements of the country, but well aware that the bulk of these millions, instead of running into legimate channels, has been placed in the hands of heavy land and real-estate speculators. Thereby a situation has been created in which speculative demands have been lavishly satisfied, whilst the requirements of small capitalists have been totally neglected. It is owing to such detrimental management of the La Plata Mortgage Bank, for instance, that we hear of the new issue, say, of 50 million cedulas this week and its absorption in a fortnight. If these hundreds of millions were lent out to small capitalists who have been steadily disregarded, they would be of immense benefit to the country instead of a threat of crisis.

In view of such antecedents, we applauded the creation of the City of Buenos Mortgage Bank, and called the attention of the market to its bona fide nature, its guarantees and its sound prospects, launched as it was to satisfy the mortgage wants of the people. To-day, we have before us the charter, regulations and prospectus of a similar concern, styled the BancoNacional Inmobiliario, started for the same purpose, but with this difference that it gives the shareholder, the mortgager, and the market still more palpable, more effectual guarantees than all the other mortgage banks. The promoter is Mr. Hans Knees, a gentleman who has evidently made a deep study of the complicated mechanism of this kind of banking. The Board of management comprises the following gentlemen:—

Chairman—Dr. Delfin Gallo.
1st Vice do—Dr Rafael Calzada.
2nd do—Sr. Manuel Romero.
Treasurer—M. Ventura Martinez.
Secretary—Dr. Jorge Argerich
Directors—General Manuel J. Campos, Messrs. J. M. Mascias, Natal T. de Torres, Marco Avellaneda, Pedro Costa y Torres, Dr. Enrique S. Quintana.
Alternates—Dr. Genaro L. Osorio, Messrs J. V. Victorica, J. M. Palma, Lieutenant-General E. Mitre, Messrs. E. Casares, and F. Llevallol.
Manager—Mr. Hans Knees.

The new bank is started with a dual capital—one of personal shares to the amount of 5,000,000$, the other of forty millions in mortgage shares, to be issued in eight annual series at the rate of 5,000,000$ per annum: making a total capital of 45,000,000$. The figure is large enough to startle one, but the process is very simple and shows how a bank of this kind could raise a still much larger capital through the mortgage shares. The duality of the capital gives rise to some complications in the working of the bank and needs explanation.

The so-called personal capital of five millions, in shares of $100, is the basis of the bank. This capital is devoted to banking operations and to the guarantee of interest on the Mortgage bonds or shares issued. The issue of mortgage shares will take place on real-estate and lands all over the country, the bonds bearing 8 o/o interest and having right to a dividend arising from the profits of the working of this mortgage section of the bank. The novelty about these mortgage shares is that on the back of each goes the guarantee of the property and all details of same, on which the mortgage is effected: the guarantee is thus direct. At the end of eight years each bond will be wiped out at par by the Bank, and the mortgage ends. The guarantee of such an operation is self-evident; every holder of a mortgage share knows what he has in hand and the property which guarantees it. This also precludes all abuse in the issue of the shares, removes all spirit of speculation, and obliges the Board to be very circumspect, as the share being under the eagle eye of the public, one single instance of favoritism, of abuse, or of speculative indirection, will suffice to injure the credit of the bank. No better guarantee could be offered to the market.

These are the broad lines of the bank's working; for further details we must refer to the charter. That such a bank is needed, and that in its working it will get the lion's share of the market's requirements is evident, in view of the guarantees given, and we congratulate the promoter on the happy idea he has worked out, hoping that in time other mortgage institutions will be obliged to adopt the same plan to find favor in the market. Before concluding, we may remark that the gentlemen who form the Board, are men outside the speculative hall, names that shine in the forum, in the army, and in the sphere of capital. Dr. Delfin Gallo, the chairman, was one of the leaders in the Argentine Congress and his name carries weight and responsibiity. The new bank is worthy of such patronage and of the favor of the market.

LOOKING FOR LAND.

VISITORS AT CANNES.

THE COMING SESSION.

Cannes, Jan. 29th.

Numbers of people have asked me of late whether they can get land to buy in the Argentine Republic, and what is the price. To all I have invariably replied that there is still plenty of land, and that in a country so vast, fully six times the size of France, the price varies exceedingly, in some places not exceeding £20 the square mile or £200 the square league and in others ranging from ten to twenty times that figure. This seems to them very strange, but all seem anxious to put spare money into South American lands. I tell them, however, that they are buying rather late in the day, and that seven years ago they could have done a better business, to which they reply that it is only very recently people have begun to hear anything of Argentina.

Speculators and investors are now looking round the world for cheap lands. In the United States there is not much left, since Alaska is really of no use, and the Homestead Law has given away nearly all that was available in the Western States. There is, at the same time, in Canada a vast territory of excellent land west of the Rocky Mountains, but th distance is so great that unless you could grow gold watches it would hardly pay freight to send your goods to market, say 3,000 miles. As for Australia, there is twice the area of the Argentina not yet occupied, but the want of water renders most of it practically useless. Agriculture in such wastes is out of the question, and even sheep-farming is attended with great danger of drought.

Cape Colony has attracted some people but hardly offers much room for investments of this kind. The lands near Cape Town are fully settled and very dear while those far out are exposed to Basutos and other drawbacks. According to Mr. Froude, there can be no better place to buy land than Jamaica or the Bahamas, but the English there are trying to sell out at any price, which is no recommendation for land-investors, and hence they think Mr. Froude as unreliable in this respect as he is in matters of history.

Under these circumstances Spanish America has suggested itself to many, and I have heard of large purchases in Mexico. It seems that an Irishman, named Patricio Milman, of Monterey, is the largest "hacendero" in that country, and some cattle-farms belonging to Americans and English comprise a great portion of the lands lying south of the Rio Grande.

But why do not some Argentines or Anglo-Porteños establish a regular land-agency in Moorgate-street, London? I am aware that this was attempted two or three years ago. It was, however, too soon, for Englishmen then (educated men) were in the habit of going to the Royal Mail Office and asking for tickets for Rosario, "as they wished to see the West Indies". At dinner to-day I met an English Admiral who knows where Buenos Ayres is, and owns some lands near Peguajo, which he bought through the G. Southern Railway Company in 1881: it was part of a lot of 116 square leagues. There is at present such an inquiry for Argentine land that many would gladly buy if they knew how to go about it. If lots of 1,000 acres or 400 hectares could be offered to purchasers (free of law costs) at a fair price they would certainly command ready sale. But it would be necessary to begin by spending £10,000 in advertising.

Cannes, Jan. 29.

This place is now in the height of the season, and the hotels are all but full. The California is a big house on a hill overlooking the road to Antikes, where only the richest visitors go, the charge being 20 francs a day or nearly as much as at Mar del Plata. Nearer town is the Prince of Wales, on a fine slope surrounded by pine-woods, and here some Russian Grand Dukes and staff officers are staying, Hard by are the Provence and Hotel des Anglais, crowded with some of our countrymen and countrywomen, who in passing you on the highroad stare at you with an enquiring look "What brings you to Cannes?" The Alsace is another fine house, with people of various nationalities, but the St. Charles and Montfleury are wholly English. Nearer town is the Britannique, where Lord Sackville and his daughters are staying, and on the beach at the Hotel Gray you may see Baron and Baroness Du Graty, the Baron well-known in Buenos Ayres for his works on Argentina and Paraguay. On a hill overlooking the Bocca is the Continental, which counts among its guests the Right Hon. W. H. Smith, fresh from Monte Carlo. In my hotel we have an Admiral, 24 ladies from various parts of England, a gentleman and his wife from Devonshire, an Indian officer, a French family from Algiers and some others.

There are, however, hundreds of villas and boarding-houses, where our countrypeople take up their quarters for the winter. A little steamer leaves the pier twice a day for Fort St Marguerite, taking among the passengers some visitors specially invited by the Governor for shooting parties. But I fancy that people who need amusement find this place dull, dancing being the only pastime. Perhaps I should add, except walking, for the air is so bracing, the scenery so fine and the roads so good, that it must be very pleasant for pedestrians. I have not yet got far up the hills, but I ramble about in mornings from 8 to 10, then come home to work until breakfast, at half-past 12.

The annual battle-of-flowers is to come off on St. Valentine's Day, 14th prox., and the Prince of Wales is expected. There is a great profusion of flowers here, besides trees and plants. The Acacia is now in flower, reminding me of Flores, and the Eucalyptus Globulus meets you at every turn. Palms are the distinctive feature of Cannes, alternating at times with the feathery Pampa grass, or with bamboos of a very graceful form and foliage which give the place its name. The Romans were here for a long time, remains of that period being constantly dug up.

A kind of Influenza has prevailed here for the last fortnight, no less than 6 ladies in this hotel being unable for some days to answer the roll-call at mess hour. There are 3 English doctors, named Blank, Frank and Bright, and perhaps some more: the first was a prisoner of King Theodore of Abyssinia. I could not tell you how many apothecaries, but they must be making fortunes by the prices of their physic. Two lending-libraries, several shops for sale of inlaid wood work, a fine English grocery, some bathing establishments two depots for eating oysters, a casino or club (entrada £2), and a fashionable tailor from London named Redfern make up the business quarter. The Cannesians are very civil, and do all they can to make your stay agreeable.

Cannes, Feb. 2.

Parliament is to open on Thursday, 21st inst., and we are likely to have a noisy session. The spectre of Ireland, like Banquo's ghost, still intrudes itself at the feast. Two years ago Lord Hartington, Goschen and Chamberlain went about saying that the country was tired of the "wrongs of Ireland" and Parliament would now set itself to legislation for England and the English. Vain hope! Iraland blocks the way, and will do so as long as the present tyrannical system prevails. The result of the County Councils elections shews that the Tory Government no longer rests on a majority of the English people. In fact the position resembles that in France, where the Cabinet commands a majority in the Chamber and is quite at variance with popular will.

It is said Lord Salisbury is about to propose a Home Rule measure for Scotland. The *W. Morning News* which arrived here to-day, and is one of the Tory papers, has the following:—

"The most influential section of the Unionist party is in favor of a Scottish Council at Edinburgh with autonomous powers. Some of the Cabinet have threatened to resign, but Lord Salisbury is stated to have observed. "If you find it impossible to do it at home, why should you object to put your washing out?" The Liberal Unionists will use their efforts in favor of the bill, and say that they are ready to make the same concession to Ireland and Wales."

We may take the above rumor for that it is worth. In his speech three years ago at Bristol Lord Salisbury spoke very favorably of the Home Rule enjoyed by Hungary, but that was when he courted Mr. Parnell against Gladstone. As Disraeli used to say "many things have happened since then," especially the alliance between Mr. W. H. Smith and his "old friend" Mr. Walter of the *Times*.

One of the most urgent matters this session will be large votes of money for army and navy purposes. This would be commendable if we knew what became of the money, but, as Lord Randolph Churchill says, there is great waste in this respect. You remember the noise made 18 months ago about swords and bayonets breaking and bending, supplied by a German firm. Only last week the dragoon sabres in Dublin were tried, when 13 per cent were found to break or get twisted; on enquiry it proved that they were supplied (from Germany) in Nov. 1888. This shews how deep-rooted is the jobbery in some branches of the public service. Last Monday Mr. Stanhope, secretary for War made a violent speech to the effect that war was imminent and inevitable. A week previously Lord Salisbury solemnly declared that the peace of Europe was guaranteed.

Lord Wolsely is spouting about Conscription, Mr. Chamberlain about improving the Volunteers. All these speeches have a fine ring of patriotism, but may partake largely of "bunkum", and certainly have an unfavorable effect on trade Merchants and manufacturers would be better pleased if Lord Salisbury declared at the next opening of Parliament. "We have resolved to withdraw our troops from Egypt, to avoid any European war, and to defy invasion."

THE NEW IRISH COLONY.

Naposta, March 1st. 1889

We arrived here safely last night after a long and tedious journey of 26 hours from the capital. At the Plaza Constitucion all was confused, due to delay of the Government official who refused to deliver tickets to the families except on personal guarantee, a slow and unmeaning task at best, but when treating of foreign names that none except a true born Celt could pronounce—absurd in the extreme. Happily, the tact of Mr Collins, the worthy station master, came to the rescue, and but for his activity and "savoir faire" half the immigrants must infallibly have remained behind. As it is after superhuman efforts on the part of the leaders of the expedition the people arrived safely, not so their luggage and stores, the greater part of which is conspicuous by its absence. Mr Sunblad's stores are all missing, and had the poor people to depend on them for 15 days, as promised by Mr Pellegrini, there would be a sad tale to tell; happily, however, in this matter like many other enterprises that I have from time to time undertaken, I was fully prepared for disappointment and rather than anyone should suffer hunger, I took the bull by the horns and bought every necessary for Government account. Even so no milk could be had for love or money. The suffering of the women and children was very great and many of the most delicate must have succumbed but for the generosity of Mr Casey, who literally flooded the carriages with this most precious liquid at each of the three stations on his princely estate. At Pigue we took up ten families who distributed meat and bread amongst their companions, the Welsh colonists cheering us with descriptions of the wonderful fertility of the soil and the splendid results on all sides of honest, patient labour.

But these delays, however timely and agreeable, almost proved fatal to the expedition, landing us in the middle of an open camp, in the middle of a dark night, and in the midst of the most hopeless confusion!

In this supreme moment, loud over the weeping of the children, the cries of disconsolate mothers, and the fierce oaths of desperate men, sounded the energetic voice of Dn Pedro Gartland, calling on the people to be true to themselves. "Let the young and weak stand aside and the men give a hand to discharge the waggons." Far better to have allowed the cargo to go to Bahia Blanca, for the scenes of selishness that followed are quite impossible to describe. Each one thought only of himself making beds of the tents and utilizing everything that came nearest hand regardless of ownership or propriety. Your correspondent, mounted on a sack of potatoes, pickaxe in hand, saved the stores which must otherwise have been burst open and strewn about the camp right, left and centre. Father Gaughen was too afflicted to speak, but his cool and collected manner did much to restore order. Roast beef fresh from the spit was served round in abundance, and none of us retired to supper until the poor immigrants were done. It was one o'clock a.m. when we sat down to dinner and the next day's sun found us not in bed. After breakfast an effort was made to spread the canvass and all were snugly housed a couple of hours before the rain came down. The ground is mostly composed of a rich dark loan mixed with sand and is particularly well adapted for the cereal and potatoe crops, the Argentine Vine Culture Company having raised in six months the finest vegetables and vines that we have ever seen. This gives fresh hope to the colonists who are determined to stand by their contract. Nor can there be a doubt that with a few years of prosperity they will be comparatively independent. Until the houses are built no titles can be given and the work must be done in common, all the ablebodied men being formed into three gangs. No. 1 To dig wells.
" 2 " Erect the houses.

LONDON LETTER.

From our own Correspondent

SERIOUS COMPLICATIONS AT HOME AND ABROAD.

Feb. 4th.

My letter by the "Neva" er intended for that steamer may reach a few hours late by the present conveyance the French steamer. In my anxiety to give you the truest version of the tragedy at Meyerling I ran the post a little too fine. I have now nothing to add or detract in fact or inference in regard to the death of the Crown Prince Rudolph. The official medical report says:—"No doubt can be entertained that His Imperial Highness did himself fire the shot" —through the right temple—"and that death followed instantaneously. The report goes on to state "that pathological symptoms in the brain were observed which point to an abnormal condition of the mind." There are still believers in the romantic and dramatic version of his death I gave you. From Vienna we are told that the man who caused the death of the Crown Prince was Prince Metternich. Curiously this morning we receive the news that a beautiful young baroness committed suicide by poison on the night of the same day the Crown Prince died, and this new tragedy took place at Meyerling. The young baroness may be a subordinate character in the gradually revealing drama and nothing to do with the Metternichs or the Princess said to have been seduced. It is reported of the late Crown Prince that as an enthusiast in the future of electricity he once was shown the modern marvels of science at the Vienna exhibition by a scientific friend. "I see doctor" said the prince "what it is all coming to. The world is going to have a nervous system and something akin to consciousness." Precisely. Let us leave the prince "lying in his white Austrian uniform with gold facings, and his black hair combed so as to conceal the ugly wound, his arms and hands stiff as if they had lost the warmth of life before loving hands could compose them in more seemly fashion"—*vide Daily News*. Let us return to the living and almost conscious world whose works of yesterday and almost of to-day are spread before us in their central office London, where amongst other things an edition of the *New York Herald* is now published every day, including Sundays. We find that Prince Bismarck who has told us contemptuously that he is "no colonies man" has disavowed the acts of his agents in Samoa and recalled the German consul. The "colonies men" are of course furious, but Prince Bismarck like all bullies knows when to draw in his horns. This affair, however, between Germany and the United States is not yet settled and it concerns us. The conscious wires place before us the fact that the United States consul in Samoa is cognizant or pretends to be of an agreement existing between this country and Germany by which we are to assist the Germans in Samoa and ultimately to receive compensation in the possession of Hawaii. Absurd as the rumour may be, it is quoted in a leading article of the *Times*. The article is chiefly remarkable for its twinges of consciousness that all is not going well at the Foreign Office and that the popular faith in the one merit of Lord Salisbury's governing ability—his foreign policy—is about to be rudely disturbed. It is not astonishing that the most deadly attacks come from his own party. For in truth, Mr. Gladstone's supporters are mostly middle-class and untravelled men, who like himself think more of theology, finance and local government than of continental politics. Lord Salisbury, were he a genius, would find himself hampered, as he is bampered and without being a genius by his Liberal Unionist friends and middle class partisans, the Smiths, the Walters, and the Goschens. In this month's *Nineteenth Century* there is an article on *The Distraction of German Statesmanship* which to anyone who thinks on Continental politics, and indeed on the politics of the newly "conscious world" is of intense interest. The author of the article is Mr. Greenwood the late editor of the *St. James Gazette* and owing to the circumstances of his separation from that paper he may be a little bitter on the subject of Bismarckian blunders and tyrannies. But it is not Prince Bismarck we think of when reading the article but of the vacillations, the timidities, the want of foresight, the unwisdom of our government, Liberal or Tory. Only at the foreign office can they know what is taking place around us. But as Mr. Greenwood says, knowledge is not wisdom, it is only the equipment of wisdom. The men at the foreign office or in the government are as other men are and see facts as they are coloured by their own minds. Only science sees facts as they are, and only genius sees them all together in one glance and detects their direction and tendencies. Lord Salisbury loves law and order, and under the influence of class sentiment he truckles to Germany. On the other hand he fears majorities and bye-elections at home, and tries to shuffle out of Prince Bismarck's grasp when he maliciously shouts to the world "England and Germany are one." Lord Salisbury dare not say "yes", he dare not say "no", and such is his unenviable position at this moment when even his faithful *Times* challenges him to say one thing or the other in the interests of what Mr. Greenwood well calls this "Sprawling empire." Meanwhile Prince Bismarck loses patience and temper and sets his reptile gang to abuse us, and is supposed to have induced Lord Salisbury to follow Germany on the East Coast of Africa by holding out some terrible threat to England unless she submits—"submits" is the word, but we are not told what the threat may have been. Prince Bismarck is not particular when in passion. He may be now making turns with the coming Harrison—Blaine government in the U. States, with General Boulanger and with Russia for a general raid upon England and a division of Europe and the world between France, Germany, America and Russia. It sounds absurd, but the handling of this country's interests must have been feeble and faulty in the extreme to have made it subject to a threat of any kind from Germany which if properly met by a Liberal and democratic as well as strong policy is a weak power.

To that pass has a policy of law and order come to in our foreign relations. Turning to domestic affairs, there are signs of a Tory and coercionist policy breaking up. Mr. O'Brien fighting for his clothes and held up to a sympathising world as a martyr standing in his shirt for 36 mortal hours in a cold dungeon at Clonmel has aroused the Irishat all events. There are symptoms that the English, exasperated by Mr. O'Brien's arrest in Manchester and Mr. Sheehy's arrest in Glasgow, are beginning to see that the arbitrary and cruel treatment of the Irish patriots for no absolute crime is a little too warm, and if submitted to the government sooner or later may try the same game in Britain. Balfour would, but his uncle is too fat and timid. In the midst of the little excitement caused by Mr. O'Brien's arrest, and by Mr. Sexton's rather ill-judged device of sending as Lord Mayor of Dublin a commissioner of police in the middle of the night to the Vice-regal lodge with a written protest to Mr. Balfour against the murderous treatmeat of Mr. O'Brien by the government, there comes the news from Gweedore of the arrest of Father McFadden as he came out of the church where he had been celebrating mass, and of the death of an inspector of the Irish constabulary at the hands of the infuriated people who had been attending mass. There I say the *Times* and *St. James's Gazette*, now what do you say about your O'Briens and your McFaddens—flat murder. Let us have more coercion, more imprisonments, worse treatment of the prisoners in the name of virtue, morality, public safety, law, order and property, What about Balfour's speech yesterday at the great Liberal Union meeting in Dublin? What about your increased commerce and the contentment of honest people at the suppression of agitators and of the crimes of boycotting. Ireland is in flat rebellion, and it seems likely that England is partly in rebellion is her way. Whilst in Ireland, the catholic archbishops protest against the conduct of the Government, and the Irish leaders warn Mr. Balfour that they cannot restrain the people longer, and great mass meetings are held in Phœnix Park, there is forming in England a League of Protest the object of which is to put a stop to the present methods of coercion in Ireland; and if the new League rouses the English it will ultimately put a stop to the Tory Government, which is beginning to fail at home and abroad.

TESTIMONIAL.

To Mr. E. S. Martius, Captain of the Jupiter,

We the undersigned passengers of the steamship Atrato, in quarantine on board the Jupiter, beg to state that we cannot leave the Jupiter without giving some expression of the esteem in which we hold its captain. Mr. Santos Martius, whose gentlemanly and unceasing attention was fully appreciated by all on board. We spontaneously unite in giving you our most heartfelt thanks and in wishing you every prosperity. Since our arrival on board the Jupiter, you have done everything in your power to make our stay light and agreeable.

In conclusion we hope that all who have the ill-luck to be placed under the same circumstances through which we have passed will be fortunate enough to meet a captain as amiable and as attentive as Captain Santos Martius, whom we beg to accept this testimonial.

TIGRE BOAT CLUB.

To the Editor of the STANDARD.

Dear Sir,

Just having returned to town I had an opportunity of reading "A Member's" reply to my "interesting" (which cannot be said of his answers) questions; they, even show the Tigre Boat Club to be in a much worse plight than what most members imagine. He admits that the Committee are deserving of censure and are powerless to master the situation. Has the president or head of the Committee attended their meetings and has he no influence to help the matter forward? The boats for which the Club i. e. the members are paying deposit, will still further diminish the available capital and may rot, get damaged or worm-eaten before required for use. The would-be members whose subscriptions are still outstanding should be declared "cesantes", many others would come forward to replace them but are only waiting to 'see' the Club to join.

A meeting (and where is the half yearly one) should be called immediately to take some steps in the matter, as a screw must be loose somewhere and 'suspense is worse than failure'.

Yours truly,
A Tigre Boating Man.

TELEGRAMS FROM MENDOZA—STIFF CIRCULAR TO THE RAILWAY-MANAGERS. DR. ARAOZ'S SECOND LETTER TO THE HOME MINISTER.

Dr. Araoz received two telegrams yesterday from Inspector Silva. The inspector in his first wire says that it is urgently necessary to know when traffic will be resumed on the Pacific Line. The Argentine Great Western has been completely knocked on the head by the suspension of traffic.

In his second and later telegram Mr. Silva states that the Central Argentine has been compelled to suspend traffic. The Pacific too being in a similar condition, trains cannot get further than Villa Maria. Many of the Argentine Great Western sleeping-carriages having passed on to the Pacific Line cannot now return, and the passenger-traffic has been brought to a full stop.

Dr. Araoz has forwarded a stiff circular to the railway-managers advising them that by virtue of decree of Feb. 18 of this year they must put up barriers and fences. In this respect the managers must consult the municipal authorities.

In our issue of yesterday we alluded to a second letter from Dr. Araoz to the Home Minister. The letter in question although lengthy is not of the very greatest importance, since it merely deals with the hostile attitude of the Provincial or Western Railway. So far this line has obstinately refused to allow any interference on the part of the National Railway Board, although, as we all know the principal station of the line lies within the municipal radius. Dr. Araoz wishes once for all—and he is right—that the action of the National Railway Board be recognised by this line. The minister will very probably decide in favor of the application of the indefatigable chairman of the National Railway Board.

From the *Railway Times* of Feb. 9th we clip the following:—

"Central Argentine Railway.—The directors propose to offer the 1,500,000l. of new capital, authorised by the resolution of Februay 7th, to the members on the company's register on February 20th, in the proportion of one new 5l. share for every 10l. of their holdings. The present issue is made in shares of 5l. each, instead of shares of 20l., so that allotment of small amounts may be made without the inconvenience arising from the necessity of dealing with fractions of shares. It is intended to send out the allotment letters on or about February 22nd, and to make the first instalment of 1l. per share payable on March 15th, the balance by instalments of 1l. per share at such times as the directors may appoint. The directors propose that the balance dividend for the year 1888 should be declared before the payment of the second instament, and the interim dividend on account of the year 1889 before the payment of the fourth instalment.

EDITOR'S TABLE.

The rousing storm yesterday gave people something to talk about. The Roads, inner and outer, were as rough as the Bay of Biscay all day, and the passengers from Montevideo had hard work to get ashore; some of them were too timid to attempt it, and remained on board the steamers. The mail-bags were within an ace of going to the bottom, and one of the Port 'falunas' of turning turtle. There wasn't much damage done in port, though the wind at one time was positively terrific.

The mail has brought news of the death of Mr. James Howard, M. P., head of the great iron firm of James and Frederick Howard, Britannia Iron Works, Bedford. The deceased legislator, though he commenced his political life as a Conservative, soon renounced Toryism and joined the Gladstone party: he was an advanced Home Ruler, and had the broadest views and sympathies for the welfare of the masses. He was a shining light in agricultural matters, and his name was known over the world. He was at one time Mayor of Bedford and had occupied many other prominent public positions.

The Government appointed last night Dr. O. Ojeda, ex-Postmaster-General, Minister of the Argentine Republic in Portugal in lieu of Dr. Pardo deceased

News of a very serious nature was ram pant last night in political and financial circles. It was stated on good authority that the Governor of the province had sent a very stiff note to the President of the Provincial Bank in this city, asking him to explain certain political affanities in the management of the Bank or to send in his resignation. It was whispered that Chairman Donovan had refused to explain or to resign, whereon the Govrnor had sent him an ultimaium giving him 48 hours to resign or to be summarily dismissed. The gravity of such news cannot be exaggerated. The political surface of the province looks smooth, but still waters run deep, and a storm is brewing: it remains to be seen whether it is a gale or a hurricane. Quien sabe? In this land of rapid atmosphorical transition, the unexpected always turns up.

Very few people yesterday believed the news of Uncle Sam's being blown up at Samoa; nevertheless there was most decided anxiety in all circles to hear more of the affair. If true it means great events. In the New York papers of January we see that the U. S. war ships at Samoa were the Adams and Nipsic, so it must be either that the Germans have blown up. The Nipsic was here some years ago.

The inclement weather caused an "I mourn the hopes that leave me" feeling in Carnival circles yesterday. The decorated streets had an intensely wishy-washy appearance at dinner time, and most people made up their minds that all hope of a Corso was centred in this evening.

There is no longer the smallest doubt as to Boulanger being the man for France in the ticklish times before her. Even the blue-blooded Quartier St Germain has taken him up: and at a recent ball given by Viscount de Kervequen, every man and woman in the room wore the General's emblem—a pink carnation—which has now completely snuffed out the Napoleonic violet, the Royal lily and the Republican whatever-it-is. Fickle France!

EDITORS TABLE.

(Continued from 1st Page.)

The Club de Carreras, a joint stock concern for gambling on the Turf, has applied to Government for approval of its statutes. Disapproval, we should say, would be the proper thing in this case. As the capital is only 100,000 nats, a few big "sticks" such as finished off so many less pretentious concerns of the kind last season, would probably "do for" this new one also. Some day Congress, instead of taxing these betting shops, will do better and wipe them out altogether, just as the Lottery, harmless compared with the diverse and dubious forms gambling has now assumed in this city, was abolished at least "de jure", though by no means "de facto".

We take the following from the *Chilian Times*:—"Mrs. Edwards' Gift.—The munificent donation of 300,000 dollars made by this charitable lady in favor of the hospitals, has been constituted a charge on the fine block of building recently erected by her in Esmeralda-street, at the rate of 4 per cent. per annum. The yearly product of 12,000 dollars is to be distributed as follows:—The sum of 8,000 dollars to San Juan de Dios Hospital, and the remaining 4,000 dollars to San Agustin Hospital."

Another flare-up about the defunct Exhibition is reported from Rosario, owing to some extremely stiff remarks on two editors published by the President of the Exhibition Committee. Two duels are to come off. This Rosario Exhibition has caused more scandal and bickering than it would have been worth had it even proved the most brilliant success instead of the wretched failure it was.

Some fire insurance office is "stuck" for some few thousand dollars by a blaze the other morning in a card factory in Calle Independencia. The place was insured for ten thousand dollars, but not half that amount was ended in smoke.

It is a singular fact that a woman cannot look from a precipice of any magnitude without becoming dizzy. But what is still more singular, the dizziness departs the very moment somebody puts his arm round her waist to keep her from falling. Queer isn't it?

The pick of the CAMP

Soil and situation unexceptional, most interesting affair, tremendous future, 3 hours from the Capital, return the same day.

In Zarate In Zarate In Zarate

The best camp in the North, comprising the beautiful pleasure and productive mansion, belonging to Sr. Miguel Lima, the sale of which is caused by this gentleman's absence in Europe; it is sufficient to announce the situation and ownership of the camp to give an ample idea of its value. Fattening camp with very abundant soft grass like granillo, cardo axual, alfilerillo, trebol de carretilla and olor.

To give an idea of the quality of the soil, suffice it to say that, when there is no pasturage on the adjoining camps, in this they are fattening 1700 steers and 6000 sheep, paying a dollar a head for cattle and 7 cents for sheep. This splendid camp of 1233 hectares, distant a league and a half from the Estacion Lima, F. C. Rosario and 30 squares from the village chacras and the Colonia Lima, bordering for some distance on the river Areco which joins the Barradero a few squares off and the Barradero joins the Parana.

All this superb camp is perfectly fenced with 6 strirgs of steel posts and half posts of ñnandubay every 5 varas and wiring in the centre. Divided into 4 potreros, each with a large trough, water deposit, cement trough etc.

In one potrero there are 100 hectares of alfalfa, 700 fruit and forest trees, eucalyptus magnolia, palms, gardens, etc. In a word, it is an Eden!

Attention, speculators and capitalists! Prepare for a surprise! Up to the present time there has never been such an important business with such an insignificant base. Base $325 the hectare. Absolute sale! We repeat that Sr. Lima is going to Europe. Remember that in the Salado lands have been sold at $200 per hectare and $300 to 450 have been given for Centros Agricolas.

Recently in Pilar 150 cuadras of camp have sold for $1000. This notable business has 150,000 cedulas, series M. Comparatively, therefore, it can be had with little money. On the basis fixed, the purchaser can remain with the mortgage for the price of the cedulas, the day of the contract. The payment to be made half down and half at 4 months with 8 per cent per anuum.

For plans and further prticulars apply at our office 153 San Martin. Those who desire to visit the camp will meet at the Lima station on the arrival of the first train a carriage which is at their disposition on Thursdays, Saturdays and Sundays. The auction will take place in our office San Martin 153 on **Thursday 14th March 1889** at 3 p.m.

Matters were somewhat livelier on 'Change to-day owing to its being weekly settlement day, and there was a brisk demand all round for gold. As for the rates, they opened high and kept steadily up, though there was a tendency to sinking in the quotations for end of month and April. However, the cash rate is most stubbornly maintained, and many who had formerly considered the rates high, now believe that there will be no decline until the rate passes 160. Thus speculative history repeats itself, and as last year the rate fluctuated between 140 and 150, this year it will probably maintain a movement between 150 and 160. Were this mathematical progression to be inevitable, it would soon bring on a crisis; but the country is going ahead so fast and fearlessly that the premium must soon change from advance to retrogression. Even though dealers are afraid to enter into engagements to deliver gold during the year at the present rates, fearing the influence of "corners," semi-panics, and "krachs," they believe that under any ordinary circumstances the premium will not advance beyond the present level. As for stocks, they are one and all a drug on the market, and such is the depression now that many previously at a premium now are at par and even in some cases at a discount. This is all the more significant considering the easy state of the money market.

Operations at the first hour in gold embraced about 1½ million, of which $550,987 were required for the liquidation and taken up at rates fluctuating between 158.70 and 158.50, the latter being the closing rate. For Monday and Saturday there was some activity, but operations were small and rates more or less sustained at 158.30 and 158.20 respectively. For end of month there was little enquiry, only 460,000 being sold; the rate opened at 158.20, fluctuated several times down to 158, at which it closed, although it was said that there were buyers at the close 10 cents higher. In stocks, even the favourite Cedulas were dull. Nat. Bank Shares opened at 259, advanced to 259.50, and closed at 259: the tendency is said to be weak, and it is said that if rates shew any further improvement there will come very large orders to sell, owing to the distrust generally pervading the stock market. Still the shares are cheap, and holders are loth to realize at the present rate.

The following is a summary of operations effected this morning at the first ring:—

The Banco Nacional discounted yesterday, between gold and paper, $1,200,000. The Provincial Bank did nothing.

In jerked-beef the sale is reported of 4,300 qq. from a Magdalena "saladero," to load for Cuba per Spanish barque Amalia, at 26 rls. the quintal put aboard; also 9000 qq. from Saladero Javier at 25½ rls., to be delivered before end of April.

The gale in port, though one of the stiffest experienced here for many years, did little or no damage, owing to the small craft having all had the wise provision to put in for shelter yesterday. The larger craft and steamers all rode it out in safety, and only one small row-boat was picked up ownerless in the roadstead.

Business at the second hour was of the very tamest description in gold and absolutely nil in stocks. The premium shewed a slight relaxing tendency, closing at 158 for Monday, 157.80 for end of month, and 157.60 for end of April; there were sellers for end of month at closing rate, but there were many buyers 10 cents lower. Nat. Bank Shares were entirely neglected. A few operations were done in Credito Real at 131 for end of month; 12 Spanish Bank Shares changed hands at 1000, and Constructor Obligaciones at 15, but the Sud-Americano Shares declined still further to 96.

In exchange there was nothing doing to-day, and rates are quoted the same.

There was much comment in the hall on the Samoa telegram published to-day, but no credit is attached to the news by the large majority of the people who are interested in the subject. It is generally said that the news is a "canard."

Messrs. Wilson Sons, and Co., Limited, agents for the Pacific Steam Navigation Company, advise us that all berths per s.s. Britannia, sailing from Montevideo on the 15th inst., and Potosi, sailing on the 29th inst., have been disposed of, and the travelling public who wish to secure accommodation by the following steamers should apply as early as possible.

The sale of a large lot of chacra land in Necochea to an English syndicate in Rosario has been effected at the rate of 2000 dols the hectare. This is the highest price yet paid for chacra land in Necochea.

The cry last year was another gold cargo for the Plate; this year it seems it will be another gold cargo for Europe. Several large consignments have previously gone forward, and now the Pleiades, which cleared yesterday, took the round amount of £200,000, whilst the Mozart has £20,000 engaged. It has, however, no palpable effect on the premium, as, being all borrowed money, these shipments have all been foreseen and discounted.

The *Rio News* gives the following:—

"Rates at the banks are unchanged at 27⅞, but bills might possibly be obtained at 27¾. Commercial sterling is scarce and some drawers ask 28; the rate for business is considered to be about 28¼."

"Sovereigns are being paid into the custom house. On the 19th 2,000, on the 20th 7,000 and on the 23rd about 30,000. The Treasury will probably need them all."

"Telegrams published here on the 23rd announce that the Pernambuco provincial loan had been awarded to Sr. Layo, whose bid was 8 1/16 per cent. The loan is for 8,600,000$, interest 5 per cent."

"On the 23rd the *Journal* advocates the re-establishment at the Mint of facilities for coining gold, and the resumption of specie payments. Specie payments are resumed, for gold is being paid into the Treasury at the legal value, and what use is there in melting down sovereigns when they may be soon called for in their well known form?"

A correspondent writes from Tres Arroyos:—

"For the information of your readers I beg to state that several building lots here can be purchased for $150.00 m/n, 50 x 50 metres, with a well sunk on them. I am under the firm impression that Tres Arroyos has a good future before it. We have the great advantage of the three streams which surround the town, and with very little labor or expense irrigation could be carried out. A mill has been erected at the junction of the three streams, distant twenty-five squares from the town; according to the engineer's calculation the force of water is equivalent to 35 horse-power. About 1000 squares of wheat have been sown this year and have given a very good result. I calculate that next year we will have ten times this amount under cultivation. The population of the town numbers some 3,000 souls. We possess a church, two good hotels, several confiterias, and the public schools are also in the course of erection. Considering that three years ago there was not the sign of a building here, I think that greater progress has been made in Tres Arroyos than any other town to the South of Buenos Ayres, of course excepting La Plata."

The following property sales are reported:—

THE BEST CURE FOR SCAB is COOPERS

SHEEP DIPPING POWDER.

It has been in use since the year 1843 and is now used upon more than 50,000,000 sheep every year

Equally good for Dipping or Handcuring.

Guarranted always the same Strength.

Read what estancieros say of it;

GEO. BELL, "Estancia Grande," Pereira
I have found it the best I have ever used. my sheep are perfectly sound, and these condition and the good look of the wool I attribute to the above Dip.

R. JACOB, Pergamino
I shall not cease to express my opinion that Cooper's Dip is without rival its results as well as for its cheapness.

ERNESTO MADERA. Maipu
The result obtained has been so satisfactory that I think it difficult to find a better and more certain remedy.

THOS. BOLLAND, "Flor de Mayo," Pergamino
None has give me such satisfactory results as Cooper's Powders.

TEODORO PETERSON, "La Belgica," Ayacucho
Cooper's Powers have given me better result than any remedy I have used yet.

GEO. E. CATTY, "El Divisorio," Bahia Blanca.
I have used Cooper's Powders for three years with the very best results on the cure of scab, and I consider that my wool has improved in appearance since I ave used it.
